

Greetings,

At Miracle Ear we want to make sure everyone in our local communities have access to high quality hearing and healthcare service. Our R.E.A.C.H program serves as a service to help educate the community of the effects of hearing loss, causes and treatments available.

We would like to introduce you, your office, staff, patients and their family members to the Miracle Ear experience. Our offices can provide complimentary hearing evaluations by appointment and accompanied by a third party. We provide opportunities to those with existing hearing aids to continue to achieve the best performance with what they are currently using and can provide recommendations for new technology to improve the quality of everyday life situations.

We also understand the financial situations of our community residence and now accept Medical and I.E.H. P and most other insurances. Our offices can verify benefits at the time of the office visit with the medical cards presented at time of appointment.

We are asking that your office refer those community residences that you know having trouble hearing and not understanding conversations to Miracle Ear. Please provide them the opportunity to take advantage of our in-office evaluation by referring them to us. We are here to provide a solution to Hearing Loss and truly care about the quality of life everyone deserves. We ask that you reach out should you have additional questions. We can be reached at 909-625-3334.

Sincerely,

Carmen Villagran
